

ARTINNOVA 2027

3rd International Conference on "Technology, Aesthetics and Innovation"

University of Almeria/UNED

Intelligent and Aesthetic Technologies for Human-Centred Innovation

The 3rd edition of the International Conference on Technology, Aesthetics and Innovation, ARTINNOVA 2027, invites researchers, managers, entrepreneurs, artists, designers, policymakers and innovation practitioners to explore this question through the conference theme: Intelligent and Aesthetic Technologies for Human-Centred Innovation.

The conference aims to explore the relationships among intelligent technologies, aesthetic technologies, and human-centred processes, practices, and solutions.

ARTINNOVA 2027 will provide an international and interdisciplinary platform for examining how intelligent and aesthetic technologies can be integrated to enhance innovation capacity, organisational transformation and value creation.

ARTINNOVA 2027 seeks to move beyond approaches that treat technological and human capabilities as separate or competing domains. Instead, the conference will explore how they can complement and reinforce one another in the development of products, services, organisations, business models and innovation ecosystems. The conference particularly welcomes contributions that investigate innovation as a cognitive and knowledge-based process in which rational, analytical, emotional, experiential, and imaginative capabilities convergegh the conference theme: Intelligent and Aesthetic Technologies for Human-Centred Innovation.

ARTINNOVA Conference and Research Colloquium can be attended either in person or online.

JANUARY
20-22
ALMERIA, SPAIN

KEY DATES

09 NOV 2026 – Submission of extended abstracts / working papers
20 NOV 2026 – Presentation acceptance notification
25 NOV 2026 – Deadline for Early-Bird registration
09 JAN 2027 – Registration deadline
20 JAN 2027 – ARTINNOVA Research Colloquium
21-22 JAN 2027 – Conference dates

CHAIRS

Martínez Raya, Antonio – Universidad Politécnica de Madrid, ESP
Trinidad Segovia, Juan Evangelista – Universidad de Almería, ESP
Santarsiero, Francesco – LUM University Giuseppe Degennaro, ITA
